

# Titahi Bay School **Strategic Plan** 2024 - 2025

## Our Strategic Goals

### Grow Relationships

We acknowledge the unique place of mana whenua & our obligation to honour Te Tiriti o Waitangi. It is important for us all to grow in our knowledge & use of te reo me ōna tikanga Māori.

There is an identified need to raise the achievement of Pasifika learners.

### Grow People

We acknowledge that our tamariki have had significant learning disruptions over recent years through a global pandemic.

Strengthening capability in literacy will impact every other learning area.

### Grow Innovation

We know that building a local curriculum that is relevant to our tamariki, whānau and Hapori will engage our people and help them to thrive. What we focus on, flourishes.

## Our Initiatives

- Connect and partner with Ngāti Toa Rangatira.
- Explore the most effective ways to engage with our Pasifika community to increase achievement.

- Increase the quality of Te Reo Māori taught in classrooms.
- To raise our school's performance in reading and writing.

- Establish curriculum teams in maths, literacy and kaupapa Māori and develop clear action plans to increase achievement and engagement of key curriculum areas.
- Develop a shared understanding of what we do here and why.

## Our Success

Partnership with these two core groups will be strengthened and developed.

Poutama Pounamu used as an assessment tool & a rise in achievement overall for teacher judgment.

A living localised curriculum document.

## Our Values

# KURA
